@ Message from Your.....

The changes to our website (as well as this newsletter) are still in process, please bear with us as we have attempted to create new code to enhance our site, as well as reduce the instances of false registrations. We will be adding a drop down menu for company names to keep them consistent and for easier registration, & it may be necessary to add additional levels of functionality to our registration page in the near future.

As always any questions or comments are welcome.

Be sure to check out our sponsor links, "Gemko Information Group". along with "Hi-tech Services" when you log in and register.

We are still looking for additional sponsors. To date we have had well over 30,000 hits to our site. The price to advertise is a bargain, at less than a penny a hit.

Also please help. We need to shut down registration early each month to enable us to print labels, receipts and a paid list, as well as give the restaurant the head count. Please register and when necessary un-register as early as possible before the meeting date.

Also please note special menus require early notification so in these incidences we need to close registration earlier. We will post the earlier times, so please be aware.

As always, we are open for suggestions to help improve our website.

Regards

Your Webmaster

webmaster@hitechservices.com

Please notify us of any change in your e-mail address so there is no interruption in your receipt of our monthly newsletter.

Do you know someone who is not a MUGWNY member who might be interested in some information about the group? Send their name, company name, and e-mail address to Leigh Sworts at lsworts@maderconstruct.com and I'll send them a complimentary electronic issue of our newsletter via e-mail.

Any suggestions for improvements to the newsletter?

... Story ideas?

... Volunteer to write an article?

About Our Organization...

The Midrange Users Group of Western New York is a non-profit organization comprising professionals working in the Midrange Systems environment. The group was organized in 1984 and is based in, but not limited to, the Buffalo area and now represents managers, analysts and programmers working together in the Information Systems field on midrange-class computers.

We sponsor a monthly dinner meeting on the fourth Thursday of each month (except July, August, November & January). Meetings will begin at 6:00 and conclude with a brief business meeting. Members are always welcome to contribute to the newsletter or any other committee of their choice. The boards of directors are elected during the May meeting and they begin their term in September.
